

*the heart of our home is our residents*

There is something that makes the Jasmine Court experience unique. It's not just the beautiful sea views, the tastefully decorated rooms or the way our dedicated and experienced staff create a special ambience in our home

~ it's the whole package.

We are all devoted to one common ideal, to care, respect and cherish our residents so making Jasmine Court your home from home.

We know that change can be hard but we are here to assist and support the transition from home to a care environment by helping to maintain as much of your independence and lifestyle as we can. The friendly environment of our home helps us to get to know each other day-by-day.

Our home is a small community that caters for all types of cultures and diversities, respecting their individuality and choices.

We are focussed on enhancing your daily experience and by offering dependable, personalised attention we work with you to help you achieve your goals.

Our staff appreciate the importance of excellence in care delivery because, should the need arise; Jasmine Court is where we would want **our** loved one to live.

# DEDICATION

We can educate new staff with knowledge and understanding on how to look after our residents but we select new staff for their caring attitude, which we believe is an essential quality.

Our staff is highly trained and regularly update their skills with on-going training programmes.

To put an arm around a distressed resident, hold their hand or just listen to their concerns is what we look for and feel is more important than anything.

We like to feel our home is an extended family and expect our residents to be treated with the same respect and dignity as our own.

We work together to achieve this but at times do not get it spot on.

Please don't be afraid to voice concerns, as we are always here to listen to you because that is what we are here for.

By choosing Jasmine Court you'll find it apparent that through our experience of life and caring we want to ensure we maintain your expectations and lifestyle.

# DISTINCTIVE

Jasmine Court is known for the distinctive touches that we feel are important for your health and wellbeing.

We know how important it is for you to feel that this is your home. A fine living experience is the word of the day.

The harmonious, relaxing atmosphere is complimented by beautifully composed interior décor throughout accommodating different tastes. This is your home and we want you to feel that you are at home.

We encourage you to personalise your own room and make you feel at home.
